Several leaks in the water mains
were repaired this week. A test
was made of the tank last week and
it was found that during one night
the water lowered twenty-three in-
ches, with all the users of water cut
off. It has been difficult this spring
to locate leaks in the mains as the
ground was so dry that the water
from a small leak would all be taken
up in the soil. But since the late
rains the ground soon settles where
a leak develops.

two machines are driven by a trac-

made by the manufacturers. It is
worth going to see, anyhow.

ty, and the proposition to transfer

**Indian Killed By a
Burlington Passenger Train**

Monday evening the Burlington
passenger train due here at 6 p. m.
struck an Indian on the track
about two miles south of town, in
front of the Richard Shortley place,
severing his right leg above the
knee and otherwise injuring him,
from the effects of which he died at
10:30 p. m., at a Sioux City hospital,
where he was removed by the train-
men. The Indian, whose name was
Anson Brown, was seen during the
afternoon with two other In-
dians, headed towards Homer foot.
All had been drinking and displayed
numerous bottles containing liquor.
Evidently Brown could not keep up
with his companions, as they had
left him near the scene of the ac-
cident, and where they had peeled
some potatoes and eaten a lunch.
Brown was an Indian farmer liv-
ing a few miles southeast of
Emerson, and was reported to have
had considerable wealth. He had
left home several days ago, going to
Sioux City, and was on his way home
when the accident befel him.

Engineer Wiley, in charge of the
train, says he saw the man near the
track and gave the alarm whistle,
but before the heavy train could be
brought to a stop the Indian ac-
tempted to arise and in so doing fell
with one knee across the rail. The
leg was cut in two above and below
the axle of the engine ground over it.

The victim was placed in the bag-
gage car of the train and conveyed
to Sioux City. The body was sent to
Winnebago Tuesday for burial. A
wife and one child survive him.

Will You Make Homestead Entry in 1915

Ten years' experience has put me in touch with the best homestead
lands in Wyoming, Colorado and Nebraska. You now have a choice of—
An 80-acre Government-irrigated farm near Powell, Wyo., where you
will be near good schools, churches, markets, neighbors, will have a good cli-
mate and be within driving distance of Yellowstone Park. \$2.60 per acre
initial cost, no further payments for five years. 75 farmers have located on
these lands since January 1st.

A 320-acre stock or dairy farm, good soil, free range, free coal and
fence posts, a good place to live. \$22.00 pays filing fee.

Government water rights in the Scotts Bluff country cost \$55.00 per
acre; initial cost \$1.10 per acre, payment of remainder distributed over 20
years, with no interest. If you do not know of the amazing crop yields of
this valley, write me.

Why pay rent? Why not work for yourself? Write for my free book
lets and about round trip fares applying every day. See these lands with
